-WHEELING, VA:-MONDAY MORNING, JUNE 20, 1853.

CONNELLSVILLE RAILROAD.—The borough West Newton has subscribed \$30,000 to the stock of the road, and the borough of McKeesport \$100,

The Maine Law liquor bill passed the New Vork Senate on Tuesday, with a clause submitting to a vote of the people of the State. The Courts of New York have already decided that a law which is made to depend on a vote of the people is unconstitutional.

TA committee on the part of the New York Crystal Palace has arrived at Washington for the purpose of inviting the President and the cabinet to be present at the opening of that grand exhibi bition, which is to take place on the 15th of July. The committee are Hon. Westervelt, mayor of New York, Hon. Theodore Sedgwick, and Mortin er Liv

INDICTED .- The Cincinnati Gazette says true bills of indictment have been reported by the grand jury against Wm. Kissane, Andrew Rindlay, Chas. Millard and Nicholson, for the bank forgeries .-The trial was set for Wednesday, although the prosecuting attorney urged the Court to set it fo a later day, to enable him to make a full proparation for the trial.

Tobacco.-There is much complaint in Ken tucky about the prospect of a short crop of tobac co. The Henderson Courier of the 25th says:-"There will not be tobacco plants enough to plant more than one half the amount first intended .-The plants have been destroyed by bugs and

MEETING OF THE SUGAR PLANTERS .- A meeting of the sugar planters of West Baton Rouge took place at the Court House, in that parish, on the 28th ult., for the purpose of taking into consideration the propriety of employing additional counsel, in order to assist the U. S. Attorney in pro: ecuting all persons for evading the revenue la. s, in introducing sugar into the United States, under the name of concentrated molasses.

THE ERICSSON .- The work of removing the machinery of the Ericsson was completed lest evening. This afternoon she is to be towed from her dock in Williamsburg to the foot of Thirteenth St., North River, for the purpose of receiving her new and powerful engine and other machinery, nearly ail of which is in readiness to be placed on board. The shaft, bed plates and water wheels are the only parts which have been retained in her. The owners are confident that the Ericsson will be in readiness for sea the first of September next .- N. Y. Tribune 15th inst.

DREADFUL CALAMITY .- The Troy Whig learns that the dwelling of Mr. A. V. Cropsy, in the town of Poestenkill, Rensselaer county, was burned to the ground on Saturday night last, after the family had retired, that a son aged eight years perished in the flames, and that another aged five years was so badly burned that he has since died. Mr. and Mrs. Cropsy escaped with great difficulty through a window, and a son aged twelve years through the cellar. Mrs. C. was so badly burned that she is not expected to live. Mr. C. was also badly burned, he being a cripple at the time. He lost

I. O. O. F .- The annual meeting of the Grand Lodge of the State of Georgia took place at Macon, on the 1st inst. From the report of the Grand Master is gathered the following statistics:

There are 44 working Lodges in this jurisdiction and a contributing membership of 1950. The contributions for relief of brothers \$3,211,41; for rehef of widows \$378; for the education of orphans \$140; for burying the dead \$760,44; making ar angregate expenditure of \$4,494,95. Number of brothers relieved 195; number of widowed families relieved 11; number of brothers buried 17. The condition of the Order is represented as healthy.

THE BRAIN OF ARTHUR SPRING .- A phrenological professor in Philadelphia has made an examination of the head of Spring, the murderer, and says that the developmenrs were characteristic of the man. The head was large, being over twenty-two inches in circumference. The perceptive faculties were stron; and the reflective weak .-Benevolence and the other organs indicative of a good disposition, were very poorly developed; while selfishness and firmness were large, and cautiousness was well developed. Secretiveness was large, and the animal organs, such as combativeness and destructiveness, were enormous .-The base of the brain was very large. The fore part of the head was very small, and the back very large, indicating sensuality and cruelty.

COLD WATER STEAM ENGINE .- Edward D. Tippett has invented an engine of the above kind. The Cincinnati Gazatte says:

"The steam is produced without boilers, by injecting cold water into generators. The amount of steam required to force out or return the piston rod, is made by the introduction to the influence of the fire at each moment, of precisely the quantity of water needed, thus doing away with the necessity of boilers. It is caimed that there is no possibility of an explosion, that greater power is biained and less room occupied I r machinery. The water falls into the engine, being first raised by a force pump into a reservoir situated above the engine, and thence inducted down as wanted.

The London Daily News of May 18th, handsomely acknowledges the triumphs of America on the seas, and institutes a comparison between British and American shipmasters, much to the disadvantage of the former. It says:

"Ti ere is no doubt that all branches of the American may have the benefit of an education for superior to that which can be obtained by the corresponding class in Great Britain. In refer nce to this it may be remarked that papers have been supplied by the American government to the masters of great aumbers of merchant vessels, con-taining a system of directions with respect to observations to be made during their respective voyages. Aided by these and the logs of the vessels, Lieut Magry has been enabled to obtain such a knowlcige of the currents of the ocean and the trade winds as to reduce the length of certain voyages by almost one third. A discovery of this nature has the effect of giving the Americans something very like a monopoly of a particular trade for a certain time. It is not too much to assert that the logs of the greater number of English merchant vessels would have been utterly useless in investigations of this nature. tigations of this nature. The general education of masters of English yessels is, no doubt, lament-

In continuation, the News says-"We are me naced in our manufactures, in our trade, and in our maritime supremacy. As a means of rising superior to these dangers, none can be more efficient than a sound practical education to the mercantile and maritime classes of our community."

The Black Swann has, as we conjectured she would divided the honor of Stafford House with airs, stowe. At a concert given there, by the Duchess of Southerland, for the purpose of bringing her forward, her accompanion were played by Sir George Smart, and the moms were filled with Earls and Countesses, and Right Honorables. John Buil is not inconsistent and does not d things by halves. N. Y. Courier and Enquirer. Keokuk, on their way to Salt Jake City. Mexico---General Almonte.

One of the editors of the Baltimore American, who appears to speak knowingly of the prominent characters in Mexican affairs, says the appointment of Almoule as Envoy from Mexico to the
United States, satisfies us that, no matter how warlike may be the language of Santa Anna towards our country, it is his intention to "syeak daggers

Our knowledge with Almonte's character satisfiles us that he would be the last man selected to make or embitter a quarrel with our nation. He is not only distinguished by his talents, culture, knowledge of our language, and public services, but his natural firmness is tempered by genial manners and address which eminently fit him for conciliation. Many years ago we heard him explosion greatly assisted the progress of the fire explosion greatly assisted the progress o press the opinion that the policy of our countries should be—"perfect alliance and perfect peace." It is true that war occurred since this noble seatiment was utterel, yet we have no reason to believe that its value has diminished in the judgment of the distinguished man who conceived it.

During his first mission to the United States in 1842-43, General Almonte made a large number of friends not only among the politicians at Wash-

of friends not only among the politicians at Wash- and water. lution. If its discussion is commenced in a spirit of justice on both sides, we doubt not that it may be settled at a single conference. If war is the was somewhat scorched, but not materially injured. true object-the sooner the mask is thrown off the

CRAWFORD'S STATUTE OF PATRICK HENRY.—The R A Little, Richmond Enquirer publishes the annexed inteesting letter from Col. Hughes, of Maryland, giving Guiraud & Sarrans, a description of the casting of the bronze statute S S Cooper, of Patrick Henry, which is to form one of the group Neave & Free, of statutes of the Washington Monument at Rich-

LONDON, May 20, 1853. To the Editors of the Richmond Enquirer :--

GENTLEMEN:-Believing that your readers will be interested in everything that concerns the great statute of Washington which Crawford is executing for the State of Virginia. I have caused the following translation to be made from a Munich waists baffle description. A waist that can be spanned is a English metaphorical expression and in a novel, but it is an American fact; and which it describes, having gone to visit the foundry some half an h ur before the metal was drawn
off, but without previously knowing that so inter
esting an event was to take place at that time; and
I esteem myself most fortunate in having been
present at the casting of the first collossal figure to
adoin the face of the magnificent monument to the
memory of the Father of his Country, to be erected
by the patriotism and liberality of the great Comthe stalk, before the evening concluded. No less
extraordinary is the size of the ladies arms. I
saw many which were scarce thicker than moderate sized walking sticks. Yet strange to say,
that when the selection of the patriotism and liberality of the great Comwhich it describes, having gone to visit the found-ry some half anh ur before the metal was drawn

nonwealth of Virginia.

It was a serious as well as an interesting operasteam scattering the melted metal in every direc-tion. When every thing was ready the director prepared to tap the furnace in person, but first rev eiently uncovering, as all present did, he soelmn-ly invoked the protection of Almighty God, an! his blessing; then perforating the luting with a long iron rod, on withdrawing it, the melted metal rushed into the moulds like a torrent of melted lava, throwing jets high into the air, through holes made for the purpose. It was truly a splendi. spectacle. In a lew minutes the operation was pronounced perfectry successful, and the welkin rang again with cheers for the director, Gustavus Adolphus, and for Fatrick Henry GEORGE W. HUGHES.

MOUNT VERNON. - The National Intelligences has the following in reference to the sale of Mount

de understand that Mr. John A. Washington, the proprietor of Mount Vernon, has disposed of that venerable mansion, with two hundred acres of the landed estate, to a company comprisi g Northern and Southern mon, for the large sum of two hundred thousand dollars. To what purpose the purchasers mean to apply the property, we have not heard; but we are very glad to learn that the terms of sale reserve to Congress the privilege of taking it. Another and irrevocable condition of the sale is that the remains of General Washinginformed that the purchasers offered a largely in creased price to have the sale made absolute; but Mr. Washington replied that he would not for any sum that could be named place it out of the power of congress to make mount Vernon the property of the nation.

According to the remarkation as their last act, distributed among them the Bibles generously given by the Bible Society. What a contrast the conduct of the good men affords to the vain but noisy philanthropy which prevades the Abolition Societies of the North!—Sav. Georgian.

ACCIDENT ON THE LINE OF RAILROAD .- On Sat urday last two laborers on the rairoad, near Finch's—a couple of miles below Harmar—were seriously injured, when at dinner, by a rock which was thrown into their during quarters from a quar-ry in the cut where the road leaves the Ohio. We learn that a 'seam blast' was prepared, to which a slow match was applied as the hands were leaving for dianer. As the dining quarters were about 200 yards 'istant, no danger was apprehended from the explosion. The men were quietly eating their dinner, when a rock weighing 150 pounds came crashing through the roof and chamber floor. The shoulder of one man was dislocated, the ribs of another were broken, (our informant says-"his side was all smashed in") and some slight injury

was done to four or five others.

The first report that reached town was that several men were killed. But we are glad to know that only two were seriously injured, and it is ho ped that they will both recover .- Marietta Intel

QUICK TRIP OF A BALTIMORE VESSEL .- The last San Francisco papers announce the arrival at that port of the barque Rebekah, Capt. Speights, from Baltimore, in I06 days. The Californian says:

"This is one of the best passages of the season and is said to be the quickest ever made by a barque. The Baltimoreans still retain their reputation of building these fast clipper brigs and barques, although the New Yorkers and Bestonians have of late years, eclipsed thom in turning out fleet clip-pers of mammoth size."

ANOTHER FUGITIVE SLAVE .- Henry Kenner, a slave of Mr. Wm. Ward, of Frostburg, Md., who made his escape about five years ago, and has been wandering about, was arrested at Louisville, Ky., a couple of weeks ago. Joseph Anderson, who was bringing him back to Maryland, was attacked by him near Covington, Ky., and dangerously beaten. Kenner was afterwards committed to Covington jail.

BAPTISTS IN VIRGINIA .- At a meeting of the Virginia Baptist General Association at Fredericksburgh, last week, it was stated that the Baptists proper of Virginia, (exclusive of the Free-Will; Anti-Mission, and Christian or Campbellites) embraces 26 associations, 608 churches, 314 ordained ministers, 59 licentiates, 80,923 communicants, and that there were baptized in the year ending June, 1852, about 5,229 new members.

WONDERFUL IF TRUE .- The St. Paul Democrat

has the following improbable story It says: We can show you a Democrat away out here in Minnesots, J. E. Warran, Esq., who declined two offices, the Secretaryships of Legation to Central America and Peru. Desirable as are those appointments, he preferred the position of a private citizen in Minnesota.

ARRIVAL OF THE BRITISH COMMISSIONERS.-The Earl of Ellesmere and suite arrived in the city last evening from New York. He designs spending a few days in our city preparatory to the official reception about to be tendered him in New York.—
Phil. Ledger.

About the sauciest affair we have seen of late, is an advertisement in the New York Mirror, headed 'To persons who think of dying,' and offering several eligible cemetery lots on moderate

frequently attain an enormous size. The whole It was a serious as well as an interesting opera-tion, not unattended with danger; as frightful ac-cidents have occurred when the moulds have not been properly dried, from the rapid formatain of the steam scattering the melted metal in every direc-tion. When every three research the directions are sent that the English type—which I presume has not, in every case, been so affected by the admixture of others as to lose its own identity—how comes it to pass, I say, that the Em lish type is so strangel altered in a few generations? I have heard veri ous hypotheses: amongst others, the habits of the people, the dry climate. The effect of the latter in a European constitution would have appeared to me sufficient to account for the singular conformation, if I had not been persuaded by natives of the country, that the small waists is mainly owing to tight lacing. This practice, it is said, is persevered in to an alarming extent; and if report be true, it is to be feared that the effects will be felt by future generations to a greater degree than they are at present.—Dublin University Magazine.

EMBARKATION OF EMIGRANTS TO LIBERIA .- The ark Adeline received on board last evening one madred and thirty-four emigrants for Liberia.— Ninet six of these people are from Tennessee, and the remainder from the State-twenty-seven belonging to respectable coulted families well known in Savannah. We learn that two benevolent Ministers of the Gospel, the Rev. Mr. Dyke, a Presbyterian, and the Rev. Mr. Smith, a Metho-dist, came with the emigrants from Tennessee, re-mained with them during the tedious ten days of their encampment near the city, shared their hum-ble accomm dations and fare, and stood by them

Pleasant Anticipations.

Mr. Porter concludes one of his articles on æri al navigation with the following flight of pros pect ve fancy:

ect ve fancy: "It may be anticipated that within a few months these exial machines may be seen soaring in va-rious directions, and at different elevations, some apparently among or above the clouds, and oth ers, like swallows, sailing leisurely just above the surface of the earth. The sides of the m st lofty and rugged mountains and the fertile valleys wil be alike reconncitered. Let our gentle readers imagine themselves to be visiting the pleasant and excellent literary establishment on the summit of Mount Holyoke on a sunny morning in the balnry m nth of June, and gently descending the cee to wards the verdant plains which border the meanimagine themselves to be visiting the pleasant and excellent literary establishment on a sexual excellent literary excellen ative avocation of hay-making; then ascending with accelerated velocity to the altitude of re-freshing temperature, and returning to New York to dine. Or suppose yourselves lessurely cruising along by the steep and rugg d sides of the Rocky Mountains, and laughing at the astonished counter nance of the harmless grizzly bear, or at the agility of the frightened antelope; and then descending to the extensive prairies to watch the prancing of the wild horses, or the furious rushing of the hordes of buffaloes. Th se things are indeed but fancies at present, but in a few months these fancies may become pleasant realities in America, while the proud nations of Europe are staring at the soaring enterprise of the independent citizens of the United States."

A SHORT STORY .-- A five dollar bill of the State Bank of South Carolina, was shown recently to the editor of the St. Louis Democrat, with the fol-

home, friends, health, reputation, soul's salvation, are all ruined, and then the end—"setting life upon a cast," and giving a discharge in full of all earthly demands at the muzzle of the murderous pistol. It is the untold history of thousands—the knife, the pistol, the calm flowing river, the rope, the poisoned cup. "Tis true," the poisoned cup. "Tis true," the poisoned cup. "Tis true, "tis pity—pity 'tir, 'tis rue."

Ladies' Hair.—I wish some one would write a good treatise—how well the write is of some articles in the Quarterly could do it—on hair dressing.—How often do we seer a really good face made quite ugly y a total inattention to lines. Sometimes the hair is pushed into the cheeks, and squared at the forehead so as to give a most extraordinary pinched shape to the face. Let the oval, where it exists, be always preserved; where it does not let the hair be so humored that the deficiency shall not be perceived. Nothing is more common than to see a face, which is somewhat too large below, made look grossly large and coarse by contracting the hair on time forehead and cheeks, and there made look grossly large and coarse by contracting the hair on the forehead and cheeks, and there bringing it to an abrupt check; whereas such a face should enlarge the forehead and cheeks, and let the hair fall partirlly over so as to shade and soiten off the lower exuberance. A good treaties, with examples in outlines of the defects, would be of some value upon a lady's toilet who would wish to preserve her great privilege-the supremacy of

Some press the hair down close to the face which s to lose the very characteristic of hair—ease and reedom. "Let her locks," says Anacreon, "lie as they like; the Greek gives them life and a will." Some ladies wear the hair like thindes—you al-ways suspect they will shy if you approach them.

Literary Depot for Sale.

The subscriber having determined to discontinue his present business, about the first of July next, offers for sale his entire stock, on reasonable terms. His stock is of a good and saleable quality, and in perfectly good order.—The room is under rent to the first of April next. The stand is a good one, with a fair prospect of a large increase of busines a as soon, as the Fa'l trade commences. The patronage is valuable. The business will afford a good upport to a sing e man, or a small family. Indeed a young man of good address, business habits, and energetic character, might find it the foundation of his forture, a though but a comparatively small capital would be required to start with. The subscriber will put the purchaser in possess on of all the information necessary to carry on the business successfully, so that he will be prepared to enter upon the business at once, without extra expense or difficulty.

N. B. Cust mers will be furnished with every thing in my line until the first of July next, as heretolore, when satisfactory arrangements will be made with all as to the future.

Parkersburgh Mineral Wells. Parkersburgh Mineral Wells.

THE undersigned, Proprietors, respectfully announce that this celebrated watering-place, hitherto known as "Buena Vista" or "Cooper's Wells," is now open for the reception and accommodation of visitors. During the 'ast year, considerable additions have been made to the property, in the way of buildings, sleeping apartments, &c.—so that we will be enabled to entertain a large number of guests, with more comfort than heretofore! The Subscribers deem if unnecessary to commend the medicinal properties of the water in these wells; their virtues are already so well known and so highly appreciated by the public that further commendation would be superfluous. Lot it suffice, that, in cases of dropsy, dyspepsia and other n aladies arising from disordered conditions of the liver or stomach, the Parkerburgh Mineral Wells are unrivailed, as almost countless witnesses will testify, who came hither as invalids and were cured by these waters. Arrangements will be made for the speedy and comfortable transit of passengers and baggage between the Town and Wells. The fare shall be good and charges moderate.

HAMPTON'S VEGETABLE TINCTURE,
THE GREAT RESTORATIVE
AND INVIGORATOR, RHEUMATISM, DYSPEPSIA, SCROFULA, 4c.

RHEUMATISM, DYSP RPSIA, SCROPULA, &c.

This medicine is altogether
PROM THE VEGETABLE KINGDOM,
and may be used by any one
WITHOUT INJURIOUS CONSEQUENCES
By a wise choice and combination of some of the best
of each class of co-operative simple remedies, it fully
eaches all the estential organs of the human system, and
thus it has proved itself so off-citally curative of the whole
ound of CHRONIC AFFECTIONS.
This article was discovered by DR. JESSE HAMPTON,
now in fine health. In the 79th year of his age. He was born
in Virginia in 1775, emigrated to Kentucky—then a wilderness—with his father, in 1779. In early manhood he
was so reduced by disease as to be almost wrecked in constitution. He spent much of his living or medical advice
and attention, and grew softling better, but worse. Find
ing no relief from his physicians, h.) resolved to try the
vestorative powers of the roots, barks, l-aves, plants, &c,
of the forest. He then dwell in the midst of the Red Men
of the Western wilds. Having heald nuch of their skill in
the use of vegetable remedies of the forest, and knowing
their mode of medicinal practice must be one of practical
capet ience and not of theoretical speculation, he made
himself acquainted with their remedies, and also with the
practical medicinal knowledge of the early settlers of Ken
tucky, had obtsined from the 'medicine men' of the II
dians.

He carefully studied the nature of the medicines used by

tucky, had obtained from the 'medicine men' of the Indians.

He carefully studied the nature of the medicines used by them, combined them according to the light he had received, used them as he had been taught, and had the cheering satisfaction of finding disease driven from his emactated body, and vignous health given in fits stead. His case was of no ordinary kind, but astonishing to his friends and neighbo s. The fame of it pread; the people far and near sent to the doctor for his successful and wonderful combination of Indian remedies; which was freely given them, until the cases became so numerous and the demand soffers that the doctor was advised by his friends, and induced through justice to himself, to put up his Vegetable Tincture in bottles, and clarge a price for it which was freely given. Finding its way into the first and most intelligent families, and astonishing all by its wonderful cures; commanding certificates and testimony in its favor from the leading and some of the most talented men of the country.

UNPARALLELED SUCCESS! UNPARALLEGED SUCCESS:

The many cures made by it, and the great demand, have induced the proprietors 'o offer it to the afflicted in this city, with the honest conviction that the same happy results will follow its use here, as in numerous other places. HON. HENRY CLAY, AND HON. R. M. JOHNSON have certified to its merits. CAPTAIN GANOT, brother of the celebrated physician to the

EMPEROR OF FRANCE,

EMPEROR OF FRANCE,
was cured by it of Chronic Inflammatory Rheumatism of
seven years duration, after the skill of the physicians of
Peris, London, and of this country had failed. Rev. Vernon Eskridge, chaplain U.S. Navy, was cured by it. Also,
Judge Davies, Hon. T. H. Sheiby, Members of Congress,
with members of the State Department, Washington, and
hundreds of others, who give their testimony to this wonderful discovery.

PHYSICIANS
have cured themselves, and the members of their families,

PHYSICIANS
have cured themselves, and the members of their families,
by its use, after their own remedies had failed; and some
of them are so generous as to recommend it to their pa

tie. ts.
It has shown itself most powerfully curative of
NERVOUS DIS ASES NERVOUS DIS ASES
in their various forms, giving new life and vigor, reatoring the shattered constitution, and thus infusing hope in place of despondency. By its mild, pleasant, and safe action on the stomach, liver, kidneys, lungs, and the nervous system, it cu es DYSPEPSIA, LIVER COMPLAINT, DISKASES OS THE URINARY ORGANS, COUGHS, ASTHMA, BRONCHIAL AFFECTIONS, CONSUMPTION, S. ROFULA, KING'S EVIL, WORMS, RHEUMATISM, GOUT, NEURALGIA, ST. VITUS' DANCE, PITS, FISTULA, PILES, with all diseases arising from impure blood

impure blood

THE FEMALE SYSTEM
has, in DOCTOR HAMPTON'S VEGETABLE TINC
TURE, A CURE for its numerous and complicated de
rangements. Hundreds who have been debilitated and
dispirited, and on the verge of a premature grave, have
been restored by its use to blooming health, which we are
abundantly able to prove by such a host of
LIVING WITNESSES

as we think no other medicine can produce.

To publish ALL THE TESTIMONY in its aver would make a large volume.

Numerous Letters and certificates, showing its RESTORATIVE AND HEALING QUALITIES are published in a pamphlot, which with their originals and a host of other commendatory letters not yet pub-lished, the proprietors will be pleased to exhibit to the

lished, the proprietors will be pleased to exhibit to the public.

Attention is not called alone to the quantity of the testimon, but also, to its HIGH CHARACTER.

Thousands will testify to cures on themselves, wives, children and friends, after all other remedies had failed.—

We give below a few extracts.

WE REQUEST ALL to call and gct pamphiets (gratist) and see history of the discovery of this medicine, and read the certificates of its cures, showing a mass of testimony, such, as we believe was never given to any other medicine.

LIVER COMPLAINT, DEBILITY.

[Extract from James Harris, Eeg'e-Letter, Alex-

LIVER COMPLAINT, DEBILITY.

[Extract from James Harris, Eeg's- Letter, Alexandria, Va.]

After speaking of wonderful cures on himself, he says:

(Are. H. has been suffering with the liver complaint a.d

with inability, constantly complaining, from weakness, through her whole system She now enjoys better health than for thirty years, being entirely restored by the use of Hampton's Vegetable Tincture.'

DISEASED SIDE, BREAST, EYES.

(Extract irons a Letter from J. Grimes, Etg., Loudoun

DISEASED SIDE, BREAST, EYES.

[Extract from a Letter from J. Grimes, Eq., Loudoun county, Va.]

'My wife has been for years afflicted with great weakness pain in the breas., side and back; publitation of the heart; feebleness of the nervous system; loss of appetite; comp exion sallow; the sight of one eye almost gone, the other very weak. I am pleased to say, Hampton's Tinc ture has restored her to perfect health. Her eyes are as good now as ever they were.

RHEUMATISM, 38 YEARS.

Mys. R i sewell, of Viginia, suffered from Rheumatism

RHEUMATISM, 38 YEARS.

Mrs. E. I agwell, of Virginia, suffered from Rheumatism from her 12th to her 50th year of age; at times entirely helpless. Geing wealthy, she cm loyed the best medical attention, and tried many medicines, but was cured only by Hampton's Vegetable Tinctur.

CHRONIC INFLAMATORY RHEUMATISM. The wife of Thomas M. Yeakle, Grocer, 76 Pearl street, was a great sufferer for eight years. Restored to perfect health by Hampton's Vegetable Tincture.

MERCURIAL RHEUMATISM! Mr. Jarrett Plummer, 108 East Baltimore street suffered this disease intensety six years; could not sleep; dreadful ulcers formed on his limbs, from which split ters of bones issued. His physician pronoqueed him incurable; but Hampton's Vegetable Tincture cured him.

HEREDITARY SCROFULA!

A boy in the family of Hon. W. P. Thommasson, once member of Congress from Kentucky, was a miss of sores from head to foot. His eyellid turned inside out, protruding over the cyeballs so as to produce thindness. He was cured by Hampton's Vegstable Tincture.

DYSPEPSIA, NERVOUS DISEASE, &c..

Mr. Wm. Oldham, of Baltimore custom house; suffered

DYSPEPSIA, NERVOUS DISEASE, &c.
Mr. Wm. Oldham, ol Baltimore custom house; suffered tnesse complaints for eighteen monits, with both body and mind seriously affected. He was cured by Hampton's Veg etable Tincture, after other things failed.
COUGH, CONSUMPTION, &c.
Mr. Henry C. Winn had a cough for 5 years, great weakness, ec.; had, in all, five or six physicians; tried all their remedies, but was cured only by
